

Director's Report, June 2015

National Technical Honor Society Induction

For the second straight year the Mount Washington Valley Career & Technical Center Inducted the highest number of new members into the National Technical Honor Society. On June 2, 2015 the following students were inducted: Maggie Albert, Jessica Allain, Kip Beverage, Christopher Chase, Rachelle Cormier, Robert Davis, Todd Desmarais, Hannah Eldridge, Andrew Jolin, Kylie Kidder, Kerry Murphy, Chantal Orfant, Carston Porter, Samuel Prevost,

Alexis Sanborn, Samuel Sires, Nikos Tsoules, Danielle Vizard, Tanner Wheeler. Congratulations to all our Inductees!

North Country CTE Student of the Year

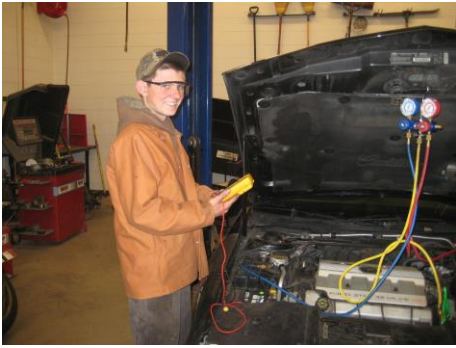

I am pleased to announce the North Country CTE Student of the year is Daniel Nash. Danny has been a strong leader of the NASA HUNCH team developing the pencil for the International Space Station. Following graduation, Danny will go on to the Marine Corp. Danny has had a tremendous senior year at MWVCTC and we wish him the best of luck in the future!

Outstanding Career/Tech Student

This year's Outstanding Career/Tech Student is senior Chris Chase. Chris is involved in both the Automotive Technology program and the Machine Tool program. Chris plans to attend White Mountains Community College in the fall where he will join the Automotive Mechanics Program. Congratulations Chris!

Student Entrepreneur Award

Senior Hayden Cyr was awarded the Student Entrepreneur Award at the MWV Chamber Business to Business Expo on June 1st. The award is sponsored by the MWV School to Career Partnership and is for a student or student group that demonstrates innovation and creativity in business for real world application. Hayden operates his own Mobile Service Repair business and comes highly recommended. Congratulations Hayden!

Machine Tool/NASA HUNCH students honored

On May 16 students from our machine tool program travelled to Goddard Space Flight Center where they were honored for their innovative and exceptional work designing, prototyping and ultimately manufacturing a mechanical pencil to function on the International Space Station. They are NASA contractors! Getting to this point has required exceptional technical, teamwork, and work skills. Students worked hand in hand with NASA engineers and manufacturing specialists revising designs. The pencil itself was reviewed at NASA facilities on two occasions by engineers, flight specialists and scientists. These product reviews stood side by side with other industry level products putting the students at the tech center in direct competition with other NASA contractors. In early May two pencils took flight on the Zero-Gravity plane for a final round of testing in a micro-gravity environment and passed with flying colors! While the final destination for these pencils is a mere few hundred miles away, the work these students and teacher Andy Shaw have completed is truly out of this world!

MWV Career & Technical Center

Culinary students at the Taste of NH Dinner

Our Jr. American Culinary Federation members attended the Taste of New Hampshire

Kip Beveridge Won Jr Chef of the Year 2015!
Mitchell Evans Won the \$1000.00 Chef Phil Learned Scholarship!
Kip Beveridge Won Chefs Chopped Challenge!
Mitchell Evans Won Chefs Chopped Challenge Runner up!
Chef Erin Schwarz Received Chapter President's Award!

Congratulations for the excellent achievement!

Student Recognition: CTE Student Spotlight

The Mount Washington Valley Career and Technical Center Student Spotlight recognizes students for achievement in Career & Technical Education programs. These students have demonstrated high levels of technical skill, program involvement through Career and Technical Student Organizations and solid employability skills.
